Background: In order to accommodate the above statutory requirement LIDS_ICE has been developed as a web-based system to record when immigration status requests are made and received.

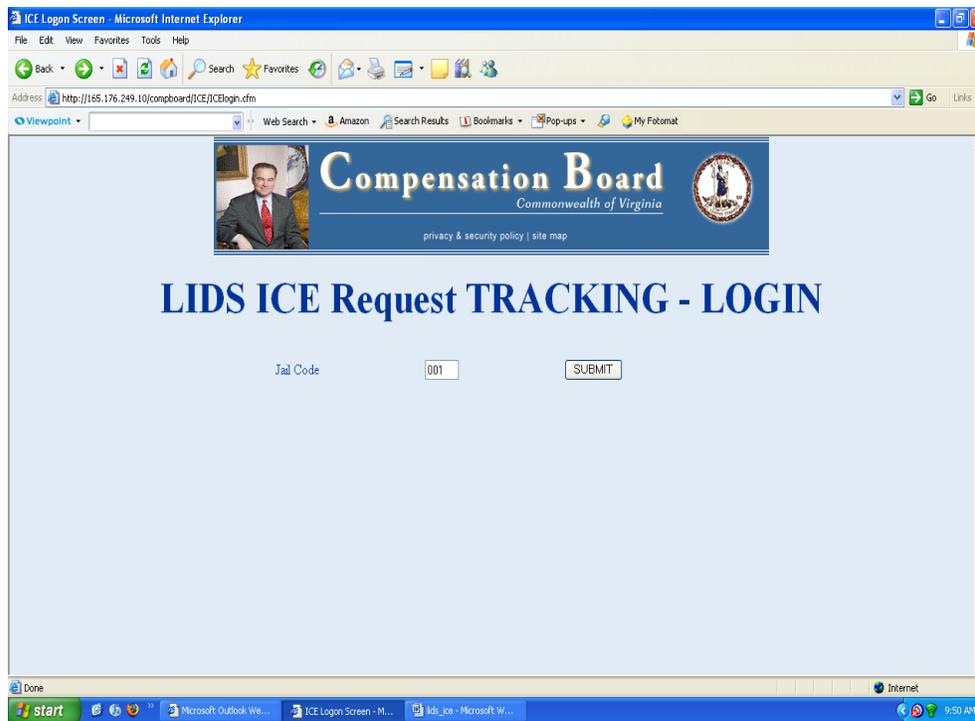

Security: LIDS_ICE has two layers of security. Jail level security has been established and can only be altered by the Compensation Board. Each jail user accessing LIDS_ICE will need to establish an individual logon. Follow the procedures for 'Creating an Individual ID'. ID lists will be sent to the jail's LIDS Technician quarterly for access verification. The LIDS Technician is responsible for informing the Compensation Board of any IDs needing to be deleted or changed. Passwords expire every 60 days and must be changed. If you forget your password, you can click on 'Forgot My Password' and a new password will be emailed to you.
