1. Accessing LIDS (On-Line)

In order to access LIDS, you must establish communications with the Department of Information Technology’s (DIT) MVS mainframe.

**Accessing the Department of Information Technology (DIT) Via the Internet**

- From the Compensation Board’s Homepage, http://www.scb.state.va.us/, click on the button titled ‘Access the Department of Information Technology’.

- You will be taken to the Security Agreement page, please read the statement, and click on the Continue button to begin login procedures.

- You will be required to use an assigned CB SecurID keyfob to access DIT.

- If you are an approved user and need one assigned please call the Compensation Board.
Accessing LIDS (On-Line) - Continued

- The first time you access DIT a Java Applet will be downloaded to your PC. When prompted with the installation message, please choose “Yes”, as this is trusted software. The download may take several minutes depending on your connection speed. However, subsequent accesses will not require software to be downloaded to your PC. This feature allows the Compensation Board to provide you software updates as they are made available.
Accessing LIDS (On-Line) - Continued

- You are now viewing Attachmate’s customer service and support website. This page will be displayed on every access attempt. This site contains useful information about the E-Vantage software you are using.

- When the link with DIT has been established, you will see displayed the TN3270E screen.
Accessing LIDS (On-Line) - Continued

If a PIN has not been established for your SecurID keyfob, your first attempt will go through the prompts listed below. Please refer to the step-by-step instructions at the end of this document.

- You are now at the DIT Commonwealth Network Enter screen.

Keyboard Layout

- To view the keyboard layout, click on ‘View’ and then ‘Keymap’.
Accessing LIDS (On-Line) – Continued

You have a maximum of five (5) attempts to log-in through SecurID before needing to have your key fob reset. In keying your username, Personal Identification Number (PIN) or PASSCODE you may backspace and re-key any keying mistakes.

SecurID Logon Procedures

Steps for Login With PIN Mode Enabled

The first time you sign on with your SecurID device it will be in what is known as ‘PIN Mode Enabled’ status. This gives you the ability to create your own, easily remembered PIN. A SecurID PIN can be between four (4) and eight (8) numeric characters.

1) You will be prompted for a ‘Username’.
   Enter an ‘i’ followed by your assigned SCB logon-id and depress the enter key. For example: iscbdew
   (Your SCB logon-id should always be entered in lower case)

2) You will be prompted for a ‘PASSCODE’.
   Enter the number currently displayed on your SecurID key fob* and depress the enter key. For example: 234123 (When you type the Passcode, it will not be displayed on the screen. Note: Key fob number changes every 60 seconds)

3) You will then be asked the following question: ‘Do you want to enter your own PIN? (y or n) [n]’ Enter a ‘y’, so you can enter the PIN that you wrote on your SecurID Access Form.
   Enter a ‘y’ and depress the enter key. (When you type the ‘y’, it will not be displayed on the screen.)

4) You will then be prompted to enter your numerical PIN, containing 4 to 8 digits, or a ‘x’ to cancel the PIN procedures.
   Enter your PIN and depress the enter key. For example, 189523. (When you type the PIN, it will not be displayed on the screen.)

5) You will then be prompted to re-enter the PIN.
   Re-enter your PIN and record the PIN along with your mother’s maiden name on the SecurID Security Form. Depress the enter key. *The Mother’s maiden name will be used by the CB when giving out PINs when the user has forgotten the PIN. (When you type the PIN, it will not be displayed on the screen).

6) You are now at the DIT-VTAM Screen.
   Enter ‘Complete’ to access SNIP or ‘CIPG’ to access LIDS using your existing logon procedures.

NOTE: If you violate your access (5 attempts), call Melanie Morrison (ext. 204) or Anne Wilmoth (ext. 222) at (804) 786-0786. Once you have been reset, follow steps 1-6 mentioned above to establish access to SNIP or LIDS.
Accessing LIDS (On-Line) - Continued

Steps for Login After the PIN Has Been Set:

1) You will be prompted for a ‘Username’.
   Enter an ‘i’ followed by your assigned SCB logon-ID and depress the enter key. For example: iscbdbaw

2) You will be prompted for a ‘PASSCODE’.
   Enter your PIN + the number currently displayed on your assigned SecurID key fob and depress the enter key. For example: 189523234965
   (When you enter your PIN, it will not be displayed on the screen).

3) You are now at the DIT-VTAM Screen.
   Enter ‘Complete’ to access SNIP or ‘CIPG’ to access LIDS using your existing logon procedures.

*NOTE: It is quite possible during this process that you will be re-prompted for your ‘Username’; this is usually due to the timed changing of the number displayed on the device. However, if you continue to be re-prompted for your ‘Username’, please contact the Compensation Board.
Accessing LIDS (On-Line) - Continued

**HELPFUL HINTS – OPTION ‘3’, Commitment Maintenance**

- You have two (2) means of submitting inmate data to LIDS, on-line or batch up-loading from a private Jail Management System (JMS)
- LIDS was designed to edit data input
  - On-line data input is edited
  - Will not allow you to go forward until edited data is corrected
  - Batch up-load data is edited at the back end of the process
  - Batch up-load jails receive an error report that must be corrected before they certify and approve their monthly LIDS submission
- Sources for verifying inmate Social Security Number (SSN) by name, date of birth and sex:
  - Contact your local Social Security Administration (SSA)
  - Contact Department of Motor Vehicles
  - Search through Livescan
  - Search through VCIN
  - Search using the CCRE (also known as the SID) or FBI number
LIDS was designed to assign inmate generated SSN if unknown at the time of booking or if the inmate refuses to provide his/her SSN

- If you are booking the inmate on-line, select Option #1 – Confine Prisoner
  - On the first screen (Prisoner Information) enter the digit #9, nine times (example: 999999999)
  - On the second screen you will receive the generated SSN
    - The first digit will be #9
    - The next three will represent your facility’s FIPS code (example: 760)
    - The remaining five digits will be a series of sequence numbers based on the number of times a SSN has been generated in your facility.

- Record the SSN in the inmate file
- Weekenders that do not have a SSN and a generated SSN was established use the first generated SSN for every weekend confinement
- Frequent customers of your facility (bad check writers, local drunks, etc) that do not have a SSN and a generated SSN was established, use the generated SSN each time they are confined

- Birth Date Format is MMDDYYYY
- Day count - LIDS computes reimbursements
  - Total Days - you do not count the commit date and you do count the release date
  - State Days - you count the commit date and you do not count the release date

- Utilized to update on-line and batch up-load inmate data
  - Updating prisoner information:
    - Helps eliminate audit finding, i.e., prevents over payments
    - Helps eliminate errors, i.e., didn’t forget to update and no adjustments are needed
    - Helps eliminate overlaps, i.e., prevents calls from the receiving jail
  - Not updating prisoner information:
    - Causes over-reimbursements, i.e., audit findings for not releasing the prisoner
    - Causes error, i.e., requires an adjustment if you have approved your report (more work)
    - Causes overlaps, i.e., if you forget to release a prisoner from LIDS that has been transferred to another jail (Reason Confined ‘35’), you will most likely receive a call from that jail indicating that you have an overlap
COMMITMENT MAINTENANCE MENU (Continued)

The purpose of Option #1, Confine Prisoner – Screen #1, Prisoner Information is to give you a means to identify the prisoner confined in jail. The Prisoner Information Screen #1 is the first of three (3) screens that you are required to complete to confine a prisoner on-line in LIDS.

Navigational Path:

- LIDS Main Menu - enter Option ‘3’ - Commitment Maintenance
- Commitment Maintenance Menu - Enter Option ‘1’ - Confine Prisoner

New Effective 7/1/2002 = State Identification Number (SID)

HELPFUL HINTS – OPTION ‘1’, Confine Prisoner - Screen #1, Prisoner Information:

- Prisoner Information is the first (lst) screen that needs to be completed in order to confine a prisoner on-line within LIDS
- Required data fields (See highlighted fields on previous page)
  - Race
  - Sex
  - Hair Color
  - Eye Color
- Effective July 1, 2002, LIDS requires that the State Identification Number (SID) for all inmates confined on felony charge be posted in LIDS. This change will allow LIDS to better interface with the Virginia State Police (VSP).
- Effective January 1, 2003, in accordance with HB 892 and SB 535, DNA analysis upon arrest for a violent felony as defined in 19.2-297.1, or a violation of 18.2-89, 18.2-90, 19.2-91 or 18.2-92 shall have a sample of his saliva or tissue taken for DNA analysis (Division of Forensic Sciences) to determine identification characteristics specific to the person.
  - After a determination by a magistrate that probable cause exists for arrest, a sample shall be taken prior to the person’s release from custody
  - LIDS will be changed to produce a report of all violent felonies requiring DNA samples to be taken
COMMITMENT MAINTENANCE MENU (Continued)

HELPFUL HINTS – OPTION ‘1’, Confine Prisoner - Screen #1, Prisoner Information:

- The clerk of the court shall notify the Division of Forensic Science of final disposition of the criminal proceeding.
- If the charge for which the sample was taken is dismissed or the defendant is acquitted at trial, the Division of Forensic Science shall destroy the sample and all records thereof.
- LIDS will be changed to allow the expunging of DNA sampling information.
- Substantial compliance therewith shall be deemed to be sufficient.
- If a sample has been previously taken from the individual as indicated by LIDS, no additional sample shall be taken.
- No civil liability shall attach to any person authorized to take saliva or tissue as provided herein as a result of the act of taking saliva or tissue from any person submitting thereto, providing the saliva or tissue was taken according to recognized medical procedures.
- However, no person shall be relieved from liability from negligence in the taking of any saliva or tissue sample.
- LIDS users now have the authority not to take another sample if a sample has been recorded on LIDS.
- If the charge is dismissed or the person is acquitted at trial, the DNA sample must be destroyed by the Division of Forensic Science.
- The bill further provides for civil immunity for the sample taker unless he is negligent.

- July 1, 2001, DNA data fields became required fields, if the offender has been Convicted on a Felony Charge.
  - Option ‘J’ - DNA Status Update should be used to update DNA data fields if information was unknown at booking.
  - Form Maintenance Option #4 – Provides you with a report that will let you know who needs DNA drawn (Confined and/or Released).
  - Suggest that you set up procedures to insure that someone (you or the Medical staff) records DNA data in LIDS.

DNA - Question/Answers:

- **Do I update the Reason Confine Code if the offender is awaiting trial/ not sentenced** on multiple charges but has been convicted on a felony charge?
  - **No, do not update the Reason Confine Code** because the offender has not been sentenced by the judge.
  - **Yes**, you need to **post the Conviction Date and the DNA Drawn Date**.

- Am I required to record DNA information if I receive a Court Order to draw DNA on an offender that has been convicted on a ‘M’, misdemeanor charge or a local ‘O’, ordinance charge?
  - **No**, you are not required at the present time.
  - **Suggest** that you record DNA information if the offender has been convicted on a misdemeanor or local ordinance charge. Providing their DNA Drawn Date in LIDS will prevent having to draw DNA if the offender is convicted of a felony charge in the future.

- What do I do if I have a Court Order to draw DNA and LIDS reflects that the inmate has already had DNA Drawn?
  - Check LIDS to see if the DNA has already been drawn.
  - Screen Print the DNA screen that indicates the drawn date and attach it to the Court Order.
  - Record on the Court Order the DNA Drawn Date and what Jurisdiction drew the DNA.

- What do I do if the Inmate refuses to have DNA Drawn?
  - Go back to Circuit Court for Guidance.

- What do I do if we had a Court Order to draw DNA and the DNA was drawn but not recorded in LIDS prior to the inmate’s transfer to another Jail?
  - Record the DNA in LIDS.
HELPFUL HINTS – OPTION ‘1’, Confine Prisoner - Screen #1, Prisoner Information:

? What do I do if I have a Court Order to draw DNA and the offender is going to DOC?
   ✓ Draw the DNA and record in LIDS

? What do I do if I have been ordered by the Courts to draw DNA on an offender that is in my Court but is not my inmate?
   ✓ Draw the DNA and Telephone, E-Mail or FAX the DNA information to the holding jail so that they can record the needed DNA information in LIDS

? Do I need to draw DNA on Probation and Parole Violators?
   ✓ Check with your Circuit Court
   ✓ Suggest that if you do have information on their original felony charge indicating that DNA had been drawn and LIDS does not reflect the same, we suggest that you record the found DNA information in LIDS for future confinements.

? If DNA has been drawn, does the inmate have a State Identification Number (SID)?
   ✓ Yes, but this may not hold true for juveniles

? Does the chain of custody need to be maintained regarding DNA?
   ✓ Chain of custody must be maintained regarding the DNA through the cycle to Division of Forensic Sciences (Change of Custody Form)

• A prisoner can be recorded to LIDS as committed to your jail after the court or magistrate has issued one of the following (Refer to LIDS Audit Guide):
  ✓ “Disposition Notice” Form # DC 356 11/95 PC, that ordered the sheriff to confine that person to jail for a specified period
  ✓ “Commitment Order” Form # DC-352 2/95 PC
  ✓ “Transportation Order” that charges the sheriff with the authority and responsibility of committing person
  ✓ Department of Corrections Parole Board Warrant
  ✓ Court Order that authorized the sheriff to take custody of a specified body, or
  ✓ US Marshal (Federal or Military) form that authorized the Sheriff to take custody of a federal prisoner
  ✓ A standard arrest warrant or personal recognizance form according to the Supreme Court of Virginia does not carry the authority for a prisoner to be recorded to LIDS
  ✓ Court issued inmate transfer

• LIDS was designed to assign inmate generated SSN if unknown at the time of booking or if the inmate refuses to provide his/her SSN
  ✓ If you are booking the inmate on-line select Option #1 – Confine Prisoner
    ➢ On the first screen (Prisoner Information) enter the digit #9, nine times (example: 999999999)
    ➢ On the second screen you will receive the generated SSN
      o The first digit will be #9

  ✓ Draw the DNA and record in LIDS

? What do I do if I have been order by the Courts to draw DNA on an offender that is in my Court but is not my inmate?
  ✓ Draw the DNA
  ✓ Telephone, E-Mail or FAX the DNA information to the holding jail so that they can record the needed DNA information in LIDS

? Do I need to draw DNA on Probation and Parole Violators?
  ✓ Check with your Circuit Court
  ✓ Suggest that if you do have information on their original felony charge indicating that DNA had been drawn and LIDS does not reflect the same, we suggest that you record the found DNA information in LIDS for future confinements

? If DNA has been drawn, does the inmate have a State Identification Number (SID)?
  ✓ Yes, but this may not hold true for juveniles

- Effective 7/1/99, the CB added the ‘Payment Status’ field in LIDS
  ✓ Added to give you a quick code to determine payment status
  ✓ Payment status (See Code Section) is provided by LIDS based upon the offense information provided by the locality

  - Developed at the request of local LIDS users during the LIDS Enhancement Training
  - Provides you with a means to update a specific confinement if the offender has multiple confinements in LIDS

    provided by the locality

- Frequently used to update data that has caused an overlap with another jail
  - Normally involves where the Commit date or Commit time is incorrect
  - The procedure that should be followed to prevent overlap confinements is to not book out your
    prisoner if another jurisdiction picks him or her up (example: Court) and returns prisoner that
day. The jurisdiction picking up the prisoner should not book your prisoner in their jail. The
only time you book out and they book in is when the prisoner stays over night.

- Effective 7/1/99 - If the Sheriff or Regional Jail Superintendent houses contract prisoners from other
  states, the District of Columbia, or the Federal Government, for more than 48 hours, the following
  fields become required and may need to be updated. These fields are utilized by DOC to collect the
  data needed in accordance with the Appropriations Act Language contained in Item 77, J5, of the
  1999 Virginia Acts of Assembly.:
  - ‘Housing Status’ - Utilize to report the prisoners Unit Security Level by indicating:
    - ‘Min’ (Minimum), ‘Med’ (Medium), OR ‘Max’ (Maximum)

      Service (If you used Reason Confined Code ‘73’)

- Effective July 1, 1999, local input in LIDS identifying the Most Serious Offense is NO longer
  required.

- Once updated enter ‘Y’ to update or ‘N’ to not update

The 2002 General Assembly session re-defined Local Responsible (LR) Inmates and State Responsible (SR) Inmates. It also defined the methodology, which will be utilized by the Compensation Board to reimburse localities on a quarterly basis for prisoners confined in jail effective July 1, 2002. The following screen is not a screen that is available on LIDS but is provided to explain the dollar amount reimbursed on a quarterly basis and the way LIDS calculates your Average Daily Population (ADP) captured on the Certification and Approval financial screen for each category and the payment status of each:

- When an offense is expunged it will be deleted from the Offense Table and written to the Expunged Offense Table. If the confinement was a single offense confinement, the confinement record will be deleted from the Confinement Table and written to the Expunged Confinement Table. If this was the only confinement for the inmate, the Prisoner and Alias records will also be deleted from their corresponding tables and written to their counterpart expungement tables. The financial record(s) attached with the confinement will remain in tact with no changes.
- There will be no direct path to the expungement tables. These tables cannot be queried against or accessed directly via LIDS.

Reason Confined Codes

Due to the new budget language for July 1, 2002, we will once again modify LIDS Reference Codes. The last time that the Compensation Board restructured reference codes was July of 1999. The restructuring in 1999 was because LIDS started capturing all offenses committed by an offender. The restructured Reference Codes for July of 2002 is due to the 2002 General Assembly actions that defined Local Responsible (LR) Inmates and State Responsible (SR) Inmates as well as defined the methodology, which will be utilized by the Compensation Board to reimburse localities on a quarterly basis for prisoners that are confined in jail or in an approved alternative program effective July 1, 2002.

- Reason Confined Codes are utilized to show the status of an inmate confined while incarcerated in your jail or in an Alternative to Incarceration Program. The are as follows:

CHAPTER 524
An Act to amend the Code of Virginia by adding a section numbered 19.2-390.01, relating to criminal justice record information; codes required.

[H 308]
Approved April 5, 2002

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding a section numbered 19.2-390.01 as follows:

§ 19.2-390.01. Use of Virginia crime code references required. All charging documents issued by magistrates, and all criminal warrants, criminal indictments, informations and presentments, criminal petitions, misdemeanor summonses, and the dispositional documents from criminal trials shall include the Virginia crime code references for the particular offense or offenses covered. All reports to the Central Criminal Records Exchange and to any other criminal offense or offender database maintained by the Supreme Court of Virginia, the Department of Corrections, the Department of Juvenile Justice, the Virginia Parole Board, and the Department of Criminal Justice Services shall include the Virginia crime code references for the particular offense or offenses covered. The Virginia crime code references shall be maintained and administered by the Virginia Criminal Sentencing Commission.

2. That the agency heads or their designees of the Departments of Criminal Justice Services, State Police, Juvenile Justice, Corrections, and of the Compensation Board, Criminal Sentencing Commission, the Commonwealth's Attorneys' Services Council, the Virginia Association of Chiefs of Police, the Sheriffs' Association, and the Office of the Executive Secretary of the Virginia Supreme Court, shall meet, identify the necessary steps and submit a written plan for accomplishing the requirements of this act to the Virginia State Crime Commission by December 1, 2002. The Virginia State Crime Commission shall coordinate the activities of this group.

3. That § 19.2-390.01 of this act shall not become effective unless reenacted by the 2003 Session of the General Assembly.

The Virginia Crime Codes (VCC) can be found on the Compensation Board’s website at www.state.va.us/compboard, under the button labeled ‘LIDS Information’. To help with your search we developed three (3) options. You may wish to select a VCC by Descriptions, VCCs By VCC Code or by Statue. If you detect that a VCC has not been developed you may submit your request to have a VCC established to the Compensation Board (CB). A Virginia Crime Code (VCC) Request Form was developed for your use and can be found at the end of this section or in the LIDS Forms Section of this User Guide. CB staff will forward your request to the Virginia Criminal Sentencing Commission to have a VCC established. You will be notified through the LIDS Monthly Newsletter when new VCC have been established. The LIDS Monthly Newsletter can also be found under the ‘LIDS Information’ button on the CB website sited above.

VCC Offense Codes Continued

HISTORY

In July of 1999, localities were notified of the ‘Phase-In’ implementation of VCC offense codes. The usage of VCC codes was a mandate (Item 77, Paragraph K of the Appropriations Act). The usage of VCC offense codes provides useful information to individuals using LIDS to assist in jail forecasting.

Phase I, II, and III of the VCC implementation has been completed. As a part of Phase III, localities were instructed to update the correct VCC offense code for ALL inmates confined in jail as of 01/01/2000. Any confinement from 01/01/2000 to the present with a NCIC code will become an error in your report.

To assist in updating these offenses, localities were given the capability to request a report from Forms Maintenance (Option ‘4’ of the Main Menu) that will list those inmates that do not have a VCC offense code.

SPECIAL VCC CODES FOR LIDS USERS

Because VCC offense codes are based on the state statutes, several special categories have been established specifically for LIDS use. These categories where established so that LIDS users could enter offense information on offenders that are not being held in jail on a state statute violations. It also enables other agencies to identify offenses not being held in jail on state statute offenses. They are:

ORDINANCE VIOLATIONS – These codes start with the offense category of ORD and end with a seriousness index of S9. Ordinance codes can ONLY be used with an offense type ‘O’.

OTHER STATE OFFENSES – PRI9912S9 for out of state felonies or PRI9911S9 for out of state misdemeanors. PRI9903S9 for Contract Out of State felonies or PRI9904S9 for Contract Out of State misdemeanors. PRI9901S9 for Private Overnight Transport/Out of State felonies or PRI9902S9 for Private Overnight Transport/Out of State misdemeanors.

FEDERAL OFFENSES – Held on BOTH state and federal charges use FED9990F9 for federal felonies or FED9991M9 for federal misdemeanors. Held on federal charges ONLY PRI9905S9 for felonies or PRI9906S9 for misdemeanors.

MILITARY OFFENSES – PRI9907S9 for military felonies or PRI9908S9 for military misdemeanors.

<th>VCC Instructions</th>

</thead>
</table>
The Virginia Crime Code (VCC) presented herein represents an offense identification system based on the Code of Virginia. Codes have been developed and assigned to most crimes defined in the Code of Virginia. These codes are used when deciding which sentencing guidelines work sheet to complete and for determining statutory seriousness levels.

- **Code Components**

VCC codes are comprised of a combination of nine letters and numbers (e.g., MUR-0922-F1). The first three letters of each VCC represent an abbreviation of the broad offense category under which the crime falls. Thus, the prefix “BUR” is used for all burglary offenses; “ARS” for all arson offenses; “ASL” for all assault offenses, and so forth. The next four digits are an identification number unique to each crime. The next letter of the VCC represents the penalty category. The last digit of the VCC represents the penalty severity number. The last two positions (combined known as the seriousness index) of the VCC are based on the statutory maximum penalty for the crime.

![VCC Diagram]

- **The Seriousness Index**

The first digit of the seriousness index (digit 8 of the VCC) takes on the following meanings:

- A = Attempt (*Felonies Only*)
- C = Conspiracy (*Felonies Only*)
- F = Felony Offense
- I = Traffic Infraction
- J = Juvenile
- L = Life Without Parole (§19.2-297.1)
- M = Misdemeanor Offense
- S = Special Penalty Structure
Virginia Crime Code (VCC) - Continued

VCC Offense Codes Continued

The second position of the offense seriousness index (position 9 of VCC) is described in the chart below.

<table>
<thead>
<tr>
<th>POSITION 9</th>
<th>CLASS</th>
<th>FELONY</th>
<th>MISDEMEANOR</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>One</td>
<td>life/death</td>
<td>up to 12 months</td>
</tr>
<tr>
<td>2</td>
<td>Two</td>
<td>20 years to life</td>
<td>up to 6 months</td>
</tr>
<tr>
<td>3</td>
<td>Three</td>
<td>5 years to 20 years</td>
<td>fine only</td>
</tr>
<tr>
<td>4</td>
<td>Four</td>
<td>2 years to 10 years</td>
<td>fine only</td>
</tr>
<tr>
<td>5</td>
<td>Five</td>
<td>1 year to 10 years</td>
<td></td>
</tr>
<tr>
<td>6</td>
<td>Six</td>
<td>1 year to 5 years</td>
<td></td>
</tr>
<tr>
<td>9</td>
<td>Special</td>
<td>penalty varies</td>
<td>penalty varies</td>
</tr>
</tbody>
</table>

Thus, when the letter “F” is paired with the number “2” (F2) the interpretation is that the offense is a class two felony with a statutory maximum penalty of life; “M3” would represent a class three misdemeanor with a maximum penalty of a fine only.

- Selecting the Proper VCC Code

A VCC code is assigned to each separate offense in a sentencing event. In many instances, there is one VCC code per section in the Code of Virginia. For example, MUR-0944-F5 is the only VCC code for voluntary manslaughter (§18.2-35).

In other instances, the Code of Virginia specifies different penalty structures depending on the elements of the offense. For example, §18.2-22 specifies a penalty of 5 to 20 years for common law burglary. However, if a deadly weapon was used and the offender is charged with using a deadly weapon, the penalty range becomes 20 years to life. In this case, the VCC code BUR-2221-F3 is applied to the “burglary of a dwelling at night with the intent to commit larceny/felony -- without a deadly weapon” and the code BUR-2222-F2 is applied to the “burglary of a dwelling at night with the intent to commit larceny/felony -- with a deadly weapon.”

In other instances, such as the offense group of robbery, the Code of Virginia specifies one penalty range. However, one of several VCC codes can be applied to this offense. For example, ROB-1214-F9 is the proper VCC for an unarmed robbery on a street. In these instances, particular attention should be given to the facts of the case to ensure proper selection of the VCC code. Proper selection of the VCC code will help ensure that the correct number of points is assigned on the sentencing guidelines work sheets.

- Attempts and Conspiracies

The letters “A” (Attempt) and “C” (Conspiracy) are penalty modifiers and can be used in place of the “F” (Felony) designation when appropriate. There are no specific VCC codes for Code of Virginia §18.2-22, §18.2-23 (Conspiracy) and §18.2-25, §18.2-26, and §18.2-27 (Attempts). Rather than utilize a code referring to the generic conspiracy or attempt statutes, the VCC code designates an attempt or conspiracy by utilizing the proper VCC code for the offense if it were a completed act and replacing the “F” with an “A” or a “C.” For example, the offense “malicious bodily injury to a law enforcement officer” has a VCC of ASL-1326-F3 which would change to ASL-1326-A3 for an attempt or ASL-1326-C3 for a conspiracy to commit this specific crime. Please note that these penalty modifiers only apply to felony offenses.
Attempts and conspiracies to commit misdemeanors do not result in any change in statutory penalty structure. For example, an attempt or conspiracy to commit a simple assault would be reflected in a VCC of ASL-1313-M1, which is also the same code used to indicate the actual commission of this misdemeanor crime. Thus, attempts and conspiracies to commit a misdemeanor retain the use of the letter “M” in the eighth position of the VCC.

Special Penalty Structures

The “S” designation in the eighth position of the VCC indicates that the crime carries a special penalty structure that does not fall within the fixed parameters of class 1 through 6 felonies and class 1 through 4 misdemeanors. The number “9” placed in the ninth position of the VCC is often paired with an “S” designation since it too refers to a special penalty structure.

Occasionally, an offense code will contain a seriousness index (VCC positions 8,9) value of “F9” or “M9.” “F9” indicates the crime is a designated felony with a special penalty structure, while “M9” designates a misdemeanor crime with a special penalty structure.

“Three Strikes”

The letter “L” is also a penalty modifier and should be used in place of the “F” when a defendant is convicted under §19.2-297.1. For example, the offense “carjacking” has a VCC of ROB-1225-F9, which would change to ROB-1225-L9 for a conviction under the “three strikes, you’re out” statute.

Ordinance (Non-payment)

Due to the magnitude of the variation within each locality’s ordinance codes, VCC codes for ordinance violations have been grouped into general categories. The majority of your ordinance violations should fall under these categories. If you do not see a VCC code that does not generally fit into any of the ordinance categories, please submit a suggestive VCC Request Form to the Compensation Board. All request are then forwarded to the Virginia Sentencing Commission for approval.

Establishing VCC Codes

If you are unable to find a VCC code that corresponds to a Virginia conviction, please contact Ms. Sue Kelly-Graham by phone (804-786-0786 ext. 220) or email skelly-graham@scb.state.va.us.

14. Reimbursement Rate Codes

**Budget Language**

**Item 67: Virginia Acts of Assembly**

A. In the event the appropriation in this Item proves to be insufficient to fund all of its provisions, any amount remaining as of June 1, 2003, and June 1, 2004, may be reallocated among localities on a pro rata basis according to such deficiency.

B. For the purposes of this Item, the following definitions shall be applicable:

1. **Effective sentence**--a convicted offender's sentence as rendered by the court less any portion of the sentence suspended by the court.

2. **Local responsible inmate (LR)**--(a) any person arrested on a state warrant and incarcerated in a local correctional facility, as defined by § 53.1-1, Code of Virginia, prior to trial; (b) any person convicted of a misdemeanor offense and sentenced to a term in a local correctional facility; or (c) any person convicted of a felony offense and given an effective sentence of (i) twelve months or less or (ii) less than one year.

3. **State responsible inmate (SR)**--any person convicted of one or more felony offenses and (a) the sum of consecutive effective sentences for felonies, committed on or after January 1, 1995, is (i) more than twelve months or (ii) one year or more, or (b) the sum of consecutive effective sentences for felonies and misdemeanors, committed before January 1, 1995, is more than two years.

C. **The individual or entity responsible for operating any facility**, which receives funds from this Item may, if requested by the Department of Corrections, enter into an agreement with the Department to accept the transfer of convicted felons, from other local facilities or from facilities operated by the Department of Corrections. In entering into any such agreements, or in effecting the transfer of offenders, the Department of Corrections shall consider the security requirements of transferred offenders and the capability of the local facility to maintain such offenders. For purposes of calculating the amount due each locality, all funds earned by the locality as a result of an agreement with the Department of Corrections shall be included as receipts from these appropriations.

D. **Out of this appropriation**, an amount not to exceed $377,010 the first year and $377,010 the second year from the general fund, is designated to be held in reserve for **unbudgeted medical expenses** incurred by local correctional facilities in the care of state responsible felons.
Reimbursement Rate Codes (Continued)

**Budget Language - Appropriations Act**

E. The following amounts shall be paid out of this appropriation to compensate localities for the cost of maintaining prisoners in local correctional facilities, as defined by §53.1-1, Code of Virginia, or if the prisoner is not housed in a local correctional facility, in an alternative to incarceration program operated by, or under the authority of, the sheriff or jail board:

1. **For local responsible inmates (LR)** -- $8 per inmate day, or, if the inmate is housed and maintained in a jail farm not under the control of the sheriff, the rate shall be $22 per inmate day.

2. **For state responsible inmates (SR):**
   
   a. Who are being held awaiting trial for additional felony charges -- $8 per inmate day.
   
   b. With all pending charges adjudicated:
      
      i. $8 per inmate day— for up to sixty days following the mailing by certified letter or electronic transmission to the Department of Corrections of the final court order within thirty days after the order being issued.
      
      ii. $14 per inmate day—on and after the sixty-first day following the mailing by certified letter or electronic transmission to the Department of Corrections of the final order within thirty days after the order being issued.
      
      iii. $14 per inmate day—on and after the ninety-first day following the date of final sentence, if the final court order was not mailed by certified letter or electronic transmission to the Department of Corrections within thirty days after the order being issued.
      
   c. Who remain incarcerated in a local correctional facility at the request of the locality -- $8 per inmate day.

F. For the payment specified in paragraph E1 of this Item for prisoners in alternative punishment or alternative to incarceration programs:

1. Such payment is intended to be made for prisoners that would otherwise be housed in a local correctional facility. It is not intended for prisoners that would otherwise be sentenced to community service or placed on probation.

2. No such payment shall be made unless the program has been approved by the Department of Corrections or the Department of Criminal Justice Services. Alternative punishment or alternative to incarceration programs, however, may include supervised work experience, treatment, and electronic monitoring programs.

G.1. Except as provided for in paragraph G 2, and notwithstanding any other provisions of this Item, the Compensation Board shall reimburse any locality with an average daily jail population of under ten in FY 1995 an inmate per diem rate of $22 per day for local responsible inmates and $28 per day for state responsible inmates held in these jails in lieu of personal service costs for corrections' officers.

2. Any locality covered by the provisions of this section shall be exempt from the provisions thereof provided that the locally elected sheriff, with the assistance of the Compensation Board, enters into good faith negotiations to house his prisoners in an existing local or regional jail. In establishing the per diem rate and capital contribution, if any, to be charged to such locality by a local or regional jail, the Compensation Board and the local sheriff or regional jail authority shall consider the operating support and capital contribution made by the Commonwealth, as required by §§ 15.2-1613, 15.2-1615.1, 53.1-80, and 53.1-81, Code of Virginia. The Compensation Board shall report periodically to the Chairmen of the House Appropriations and Senate Finance Committees on the progress of these negotiations and may withhold the exemption granted by this paragraph if, in the Board's opinion, the local sheriff fails to negotiate in good faith.
H.1. The Compensation Board shall recover the state-funded personnel costs associated housing federal inmates, District of Columbia inmates or contract inmates from other states. The Compensation Board shall determine, by individual jail, the amount to be recovered by the Commonwealth by multiplying the jail’s current inmate days for this population by the proportion of the jail’s per inmate day salary funds provided by the Commonwealth, as identified in the most recent Jail Cost Report, the Compensation Board shall use the statewide average of per inmate day salary funds provided by the Commonwealth.

2. The Compensation Board shall deduct the amount to be recovered by the Commonwealth from the facility’s next quarterly per diem payment for state-responsible and local-responsible inmates. Should the next quarterly per diem payment owed by the locality not be sufficient against which to net the total quarterly recovery amount, the locality shall remit the remaining amount not recovered to the Compensation Board.

3. The provisions of this paragraph shall not apply to any local or regional jail where the cumulative share of capital cost exceeds the Commonwealth’s cumulative capital contribution.

4. Any local or regional jail which receives funding from the Compensation Board shall give priority to the housing of local-responsible, state-responsible and state contract inmates, in that order, as provided in paragraph H1.

5. The Compensation Board shall not provide any inmate per diem payments to any local or regional jail which holds federal inmates in excess of the number of beds contracted for with the Department of Corrections, unless the Director of the Department of Corrections certifies to the Chairman of the Compensation Board that a) such contract beds are not required; b) the facility has operational capacity built under contract with the federal government; c) the facility has received a grant from the federal government for a portion of the capital costs; or d) the facility has applied to the Department of Corrections for participation in the contract bed program with a sufficient number of beds to meet the Department of Corrections' need or ability to fund contract beds at that facility in any given fiscal year.

6. Any sheriff or regional jail administrator who houses contract prisoners from other states, the District of Columbia, or the federal government for more that 48 hours, shall provide a monthly report to the Director of the Department of Corrections, which shall include the classification of the level of security of each such contract inmate and the level of security of the housing unit in which such inmates are confined.

7. The Compensation Board shall apply the cost recovery methodology set out in paragraph H1 of this Item to any jail, which holds inmates from another state on a contractual basis. However, recovery in such circumstances shall not be made for inmates held pending extradition to other states or pending transfer to the Virginia Department of Corrections.

§53.1-20: Commitment of convicted persons to custody of Director

A. Every person convicted of a felony committed before January 1, 1995, and sentenced to the Department for a total period of more than two years shall be committed by the court to the custody of the Director of the Department. The Director shall receive all such persons into the state corrections system within sixty days of the date on which the final sentencing order is mailed by certified letter or sent by electronic transmission to the Director by the clerk.

B. Persons convicted of felonies committed on or after January 1, 1995, and sentenced to the Department or sentenced to confinement in jail for a year or more shall be placed in the custody of the Department and received by the Director into the state corrections system within sixty days of the date on which the final sentencing order is mailed by certified letter or sent by electronic transmission to the Director by the clerk.

C. If the Governor finds that the number of prisoners in state facilities poses a threat to public safety, it shall be within the discretion of the Director to determine the priority for receiving prisoners into the state corrections system from local correctional facilities.

D. All felons sentenced to a period of incarceration and not placed in an adult state correctional facility pursuant to this section shall serve their sentences in local correctional facilities which shall not include a secure facility or detention home as defined in § 16.1-228.

E. Felons committed to the custody of the Department for a new felony offense shall be received by the Director into the state corrections system in accordance with the provisions of this section without any delay for resolution of (i) issues of alleged parole violations set for hearing before the Parole Board or (ii) any other pending parole-related administrative matter.

§ 53.1-20.1: Compensation of local jails for cost of incarceration

If the Director is unable to accommodate in a state correctional facility any convicted felon sentenced to the Department for a felony committed before January 1, 1995, whose sentence totals more than two years or who is convicted of a felony committed on or after January 1, 1995, and who is required to serve a total period of one year or more in a state correctional facility, the Department of Corrections shall compensate local jails for the cost of incarceration as provided for in the general appropriation act beginning on the sixty-first day following the date of mailing by certified letter or electronic transmittal by the clerk of the committing court to the Director of the final order.

§ 53.1-83.1: How state appropriations for operating costs of local correctional facilities determined

The Governor’s proposed biennial budget bill shall include, for each fiscal year, an appropriation for operating costs for local correctional facilities. The proposed appropriation shall include:

1. An amount for compensating localities for the cost of maintaining prisoners arrested on state warrants in local jails, regional jails and jail farms, at a specified rate per prisoner day;

2. An amount for maintaining convicted state felons in local correctional facilities, at a specified rate per felon day, pursuant to § 53.1-20.1;

3. An amount to pay two-thirds of the salaries of medical and treatment personnel approved by the State Compensation Board; and

4. An amount to be set aside for unanticipated medical emergencies.

(1983, c. 358; 1992, cc. 333, 573.)

§ 53.1-84: State funds available to local correctional facilities for operating costs

The Compensation Board shall apportion among local correctional facilities moneys appropriated in the general appropriation act for the purpose of financial assistance for the confinement of persons in local facilities in accordance with reports of prisoner days provided by the Department.

The county or city receiving such funds or a combination of counties or cities or both receiving such funds on behalf of a regional facility shall pay there from the operating costs of its local adult correctional facilities and programs. Criminal costs prior to confinement shall be paid out of funds appropriated pursuant to § 19.2-332.

Regulations adopted by the Board to implement the provisions of §§ 53.1-84 through 53.1-86 shall not be subject to legislative review as provided in § 2.2-4014. In the adoption of such regulations, the Board shall comply with all other requirements of the Administrative Process Act (§ 2.2-4000 et seq.), and in any subsequent amendments thereto shall comply with all the provisions of § 2.2-4012.

1. The number of state prisoner days registered by the facility in the preceding quarter, pursuant to § 53.1-121, times the specified rate per prisoner day;

2. The number of prisoner days registered for convicted state felons by the facility in the preceding quarter times the specified rate per felon day, pursuant to § 53.1-20.1; and

15. Batch Processing

The Batch Up-load may be the method of data entry for those jails having automated jail management systems. The batch up-load process will produce five reports. These reports can either be downloaded to your Personal Computer, or they can be viewed using TSO on the DIT MVS mainframe.

NOTE: Where JXXX denotes your jail number

### Up-load File Name:

SCB.PROD.JXXX.UPLOAD = upload file waiting to be processed

### Download File Name:

SCB.PROD.JXXX.DOWNLOAD = bload, dedit, and bstat files collected together

Running LIDS Uploads

Many jails have expressed an interest in running their own test and production upload jobs. Effective April 1, 1997, you are able to do this. The instructions are as follows:

- access DIT in the same manner you correct pending errors or certify and approve your monthly report.
- at the Commonwealth Information Network screen enter “TSO1” (same screen you enter CIPG)

DEPARTMENT OF INFORMATION TECHNOLOGY
COMMONWEALTH NETWORK

ENTER : TSO1

Enter your logon when prompted.

**ACF82003 ACF2, ENTER LOGON-ID**

Enter password when prompted.

**ACF82004 ACF2, ENTER LOGON-ID**

- depress the enter key when the three asterisks (*** ) displayed
- ready prompt will then be displayed
Batch Processing (Continued)

Running LIDS Uploads (continued)

ACF01134 YOUR PASSWORD WILL EXPIRE ON 4/18/97 - 12:30 ****

- will receive any DIT system broadcast messages that are currently in the system
- broadcast system messages report the times when DIT/LIDS will be unavailable
- broadcast messages may take more than one screen

READY

- test run, enter “LIDSTEST”
- production run, enter “LIDSPROD”
- to check job status, you will receive a LIDS generated broadcast message
- states the success or failure of your job prior to the ready prompt being displayed

Disconnecting from TSO1

- recommended you disconnect your TSO1 session and redial into LIDS at least fifteen (15) min later.
- to disconnect from your TSO1 Session, enter ‘LOGOFF” at the ready prompt

READY logoff

Special caution when running your own jobs:
- running upload job may detect a file has been uploaded, all errors are deleted from the pending file
- frequent uploads, you may not want your pending errors deleted
- if so, contact Anne Wilmoth to ensure that pending errors are not deleted

Batch Jail Information

1. UPLOAD
   - process of transferring data from your computer to the LIDS system
   - file is created as the result of this process.

2. DOWNLOAD
   - process of transferring data from the LIDS system to your system
   - file that is created by LIDS system for this process

Compensation Board

Batch Processing (Continued)

Running LIDS Uploads (continued)

3. **BATCH PROCESS**
   - steps taken by the LIDS system to validate your data and add it to the LIDS database
   - input for this process is the upload file you transferred to LIDS
   - output is the download file created for you

4. **PENDING ERRORS**
   - commitments that contain errors must be corrected before the data can be added to the LIDS
   - may be corrected or deleted online or they will be deleted by doing another upload (below)
   - to corrected online, the batch process must be executed to merge the corrected data into the LIDS database.

**There are 3 strategies for updating the LIDS database for batch jails:**

1. **INCREMENTAL UPLOADS**
   - process whereby you only upload data for confinements or changes since the last upload
   - desirable strategy, avoids uploading/processing data for confinements that have not changed

2. **MULTIPLE FULL UPLOADS**
   - process to upload data for confinements during the current reporting period or
   - occurred prior to the current reporting period and have not been released or
   - released during the current reporting period
   - less desirable than the first strategy, overhead involved in uploading/processing data

3. **SINGLE FULL UPLOADS**
   - same as the second strategy except upload is only done after the end of the reporting period
   - least desirable strategy, overhead involved in uploading/processing data for confinements that have not changed
   - errors are not detected until after end of the reporting period, LIDS databases are not current

The strategy that you use will depend on the software you are using. You will need to check with your software vendor or DP center to determine what is available to you. Regardless of the strategy you use, you are required to use the LIDS online system to release inmates so that other jails can process their commitments.

NOTE: Incremental Uploads, please notify Anne Wilmot ext. 222, Melanie Morrison ext. 204, or Craig Giegerich ext. 219 at (804) 786-0786 so that your processing options can be set properly. For jails doing incremental uploads, pending errors remain until they are corrected (either online or by another upload) or are deleted online.

17. Tuesday Report

The Compensation Board (CB) maintains a copy of the Population Survey of Local Correctional Facilities (i.e., Tuesday Report) on its Internet website. Tuesday Report data can be found on the CB website dating back to July 1, 1998. Tuesday Report data contains information relating to the inmate population on the first (1st) and third (3rd) Tuesdays of each month at 10:00 hours. In order to provide updated Tuesday Report information, the CB will extract inmate data from LIDS for the previous month’s Tuesday dates (1st and 3rd), the day after LIDS reports are to be submitted to the CB.
